NOTA DINAS

Nomor : ND- 5496 /UN2.F1.D1.4/PPM.00.00/2022

04 AUG 2022

Yth. : Para Peneliti FKUI  
Dari : Manajer Riset dan Pengabdian Masyarakat  
Perihal : Informasi Proyek Penelitian Partenariat Hubert Curien (PHC)  
Nusantara 2023

Sehubungan dengan adanya surat dari Direktur Riset dan Pengembangan Nomor: ND-769/UN2.RST/PPM.00.00/2022, bersama ini kami informasikan bahwa Partenariat Hubert Curien (PHC) Nusantara 2023 telah dibuka. Program ini bertujuan program penelitian bersama Indonesia-Prancis untuk mengembangkan pertukaran pengetahuan dan teknologi antara pusat-pusat penelitian di kedua negara, dengan menitikberatkan pada potensi kerja sama baru dan partisipasi peneliti muda serta mahasiswa doktor.

Ruang lingkup bidang penelitian sebagai berikut:

1	Ekonomi biru, ekonomi hijau dan ekonomi digital;	7	Teknologi Informasi dan Komunikasi;
2	Teknologi pangan;	8	Ilmu Sosial dan Humaniora;
3	Energi dan transisi energi;	9	Teknologi mutakhir, seperti Nanoteknologi;
4	Kesehatan dan obat-obatan, khususnya penanganan stunting;	10	Pelestarian Lingkungan: biodiversitas flora dan fauna, air, tanah dan perubahan iklim;
5	Ilmu kelautan, maritim dan oseanografi;	11	Pengendalian dan pencegahan risiko alam dan/atau manajemen bencana alam;
6	Teknologi transportasi darat, udara, laut;	12	Metodologi untuk mendukung inovasi dan kemandirian produk farmasi dan alat kesehatan

Adapun jadwal proyek penelitian ini sebagai berikut;

- Batas waktu aplikasi : 12 Oktober 2022
- Seleksi akhir oleh Komite Bersama : Akhir Januari 2023
- Pengumuman : Awal Februari 2023
- Dimulainya proyek : Februari 2023

Prosedur pendaftaran akan diumumkan melalui situs: <https://bima.kemdikbud.go.id>. Demikian informasi ini kami sampaikan. Atas perhatian dan kerja sama Bapak/Ibu, kami ucapkan terima kasih.

Manajer Riset & Pengabdian Masyarakat,

Dr. dr. Rahyussalim, Sp.OT(K)  
NUP 0108050351

## NOTA DINAS

Nomor : ND-769/UN2.RST/PPM.00.00/2022

Yth. : Para Manajer Riset Fakultas dan Sekolah  
Dari : Direktur Riset dan Pengembangan  
Perihal : Informasi Proyek Penelitian Partenariat Hubert Curien (PHC)  
Nusantara 2023

Direktorat Riset dan Pengembangan (RISBANG) UI menginformasikan bahwa Partenariat Hubert Curien (PHC) Nusantara 2023 telah dibuka. Program ini bertujuan program penelitian bersama Indonesia-Prancis untuk mengembangkan pertukaran pengetahuan dan teknologi antara pusat-pusat penelitian di kedua negara, dengan menitikberatkan pada potensi kerja sama baru dan partisipasi peneliti muda serta mahasiswa doktor.

Ruang lingkup bidang penelitian sebagai berikut:

1. Ekonomi biru, ekonomi hijau dan ekonomi digital;	7. Teknologi Informasi dan Komunikasi:
2. Teknologi pangan;	8. Ilmu Sosial dan Humaniora:
3. Energi dan transisi energi;	9. Teknologi mutakhir, seperti Nanoteknologi;
4. Kesehatan dan obat-obatan, khususnya penanganan <i>stunting</i> ;	10. Pelestarian Lingkungan: biodiversitas flora dan fauna, air, tanah dan perubahan iklim;
5. Ilmu kelautan, maritim dan oseanografi;	11. Pengendalian dan pencegahan risiko alam dan/atau manajemen bencana alam;
6. Teknologi transportasi darat, udara, laut;	12. Metodologi untuk mendukung inovasi dan kemandirian produksi farmasi dan alat kesehatan.

Adapun jadwal proyek penelitian ini, sebagai berikut:

- Batas waktu aplikasi : 12 Oktober 2022
- Seleksi akhir oleh Komite Bersama : Akhir Januari 2023
- Pengumuman : Awal Februari 2023
- Dimulainya proyek : Februari 2023

Prosedur pendaftaran akan diumumkan melalui situs: [bima.kemdikbud.go.id](http://bima.kemdikbud.go.id). Demikian informasi ini kami sampaikan. Atas perhatian dan kerja sama Bapak/Ibu, kami ucapkan terima kasih.

## French-Indonesian Science and Technology Cooperation Program

### PHC NUSANTARA 2023 - SAME Prancis – BOPTN

#### Call for Mobility and Research Proposals

### Summary

The PHC NUSANTARA is a joint initiative between the governments of France and Indonesia, aiming to encourage collaboration on research and innovation while strengthening connections that will lead to greater collaboration in the future. This program is managed by the French Ministry for Europe and Foreign Affairs, the French Ministry of Higher Education, Research and Innovation and the Indonesian Ministry for Education, Culture, Research and Technology (KEMDIKBUDRISTEK),.

This program is for French and Indonesian researchers working in a team who wish to fund their partnering project.

Indonesian researchers may apply for the BOPTN Nusantara research grant which is the basic research scheme (PDKN). If successful, an additional evaluation will occur with a possibility to receive SAME mobility grant that will enable them to stay in France for 3 months.

French researchers will get funding for travel and subsistence costs which will enable mobility over a two-year period either in Indonesia or in France.

### Objective

The PHC NUSANTARA aims to promote and develop scientific and technological cooperation projects and to encourage **the participation of early career researchers and doctoral students**, in both countries. Research projects involving industry and/or international organizations are encouraged but optional. **This call is excellence based.**

### Eligible areas

The programme is open for all research fields except *defense or military technologies*:

- Green, blue, and digital economy;
- Food Technology;
- Energy and energy transition;
- Health and Medicine, particularly medical treatment of stunting;
- Marine and Maritime Sciences and Oceanography;
- Transportation Technology;
- Information and Communication Technology;

- Social Sciences, Humanities and Tourism;
- Advanced materials, i.e., nanotechnology;
- Climate change and the preservation of the environment: animal and vegetal biodiversity, water, land, climate change;
- Assessment and prevention of natural risks and or disaster management;
- Methodology to support innovation and independence of production capabilities, particularly for medicines and medical devices.

## Eligible candidates

Indonesian applicants must be based in Indonesia, must be lecturers affiliated with a university under the auspice of KEMDIKBUDRISTEK and must have a NIDN. Those who have obtained their PhD degree for at least 2 years are eligible as the main applicant.

French applicants from any research laboratory, public sector research institutes and small companies are eligible for this program.

## Application Process

Applicants must submit a proposal in English containing the same title and scope of work via their respective agencies' websites:

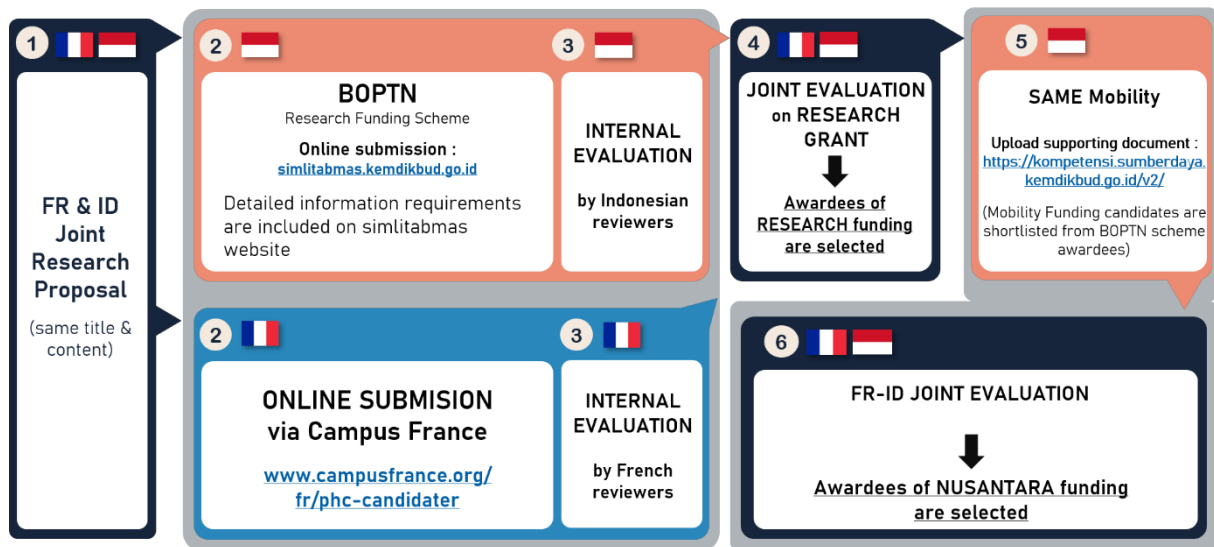

- 1) **FR applicants: CAMPUS FRANCE** <https://www.campusfrance.org/fr/phc-candidater>
- 2) **ID applicants: KEMENDIKBUDRISTEK** <http://bima.kemdikbud.go.id/>

Both applications must be received before the closing date. Applications shall strictly follow the format and time conditions. **The content of the BOPTN proposal shall be in line with the research proposal submitted online through CAMPUS FRANCE website.**

If **one of the two partners fails** to apply or send the application before the deadline, both applications will be disqualified.

Note that in addition to the BOPTN proposal, the Indonesian applicants must also have submitted a draft of joint publication and a letter of commitment via the KEMDIKBUDRISTEK website.

Successful Indonesian applicants will later be requested to fulfil all requirements in conformity with the eligible funding scheme. All BOPTN awardees will be reviewed for SAME mobility funding. If selected for SAME mobility funding, successful applicants will be requested to fill the appropriate administrative documents of SAME funding program.

Application process, source: Department of science and technology of IFI, French Embassy

## Evaluation Process

The PHC NUSANTARA call for proposals is organized **on a yearly basis**. Appointed Indonesian reviewers will assess Indonesian applications, while French reviewers will review French applications. A Joint Committee, consisting of Indonesian and French experts, will decide on the final selection.

The reviewers are invited to note the involvement of young researchers studying for a Master or PhD, or pursuing post-doctoral research, which is one of the most important selection criteria. Research projects involving industry and/or international organizations are encouraged but optional.

Selected teams receiving funding from the KEMDIKBUDRISTEK are expected to aim at publishing manuscripts in Q1, Q2, or Q3 international journals.

## Project duration and execution

Projects selected under the current call for proposals will be funded by:

1. France: two years of mobility, support for the second year is subject to the first-year review,
2. Indonesia:
  - Three months of SAME mobility during the 1<sup>st</sup> year of research period,
  - Two years of BOPTN, (support for the second and third year being subject to review and if needed the 3<sup>rd</sup> year can be supported depending on the subject).

To this effect, project leaders must submit a report of their first year's activities, to the French Embassy in Indonesia, *and* to KEMDIKBUDRISTEK by email before 15 November 2023. This report, written in English, shall include:

- 1) FINANCIAL aspects, spent or to be spent budget;
- 2) TECHNICAL progress of the project, and
- 3) FORESEEN expenditures in the following year.

Any substantial scientific results achieved in the first months of the running project needs to be HIGHLIGHTED by the project leader.

## Final report

A final report shall be sent **one month after the completion of the project at the latest** to the French Embassy in Indonesia and to KEMDIKBUDRISTEK through email. French partners will have to do so by downloading relevant files on Campus France extra-net and to affix to their online file once completed.

## Publication of Report

Upon completion of the report, all participants are strongly encouraged to publish their research results in international journals (with Scopus/Thomson-Reuters index).

## Financing

Final allocation to each supported project will be decided by Nusantara final joint committee. Funds must be strictly used during the calendar year, between January 1<sup>st</sup> and December 31<sup>st</sup> of each year. In no case, it may be carried forward to the following year. Any unspent funds will be deemed forfeited.

## Important dates

For the 2023 call, the following schedule will apply:

Call for submissions	:	11 July 2022
Deadline for applications	:	12 October 2022
Final selection by Joint Committee	:	End of January 2023
Announcement	:	Early February 2023
Start of project	:	February 2023
